

EDITORIAL

Dear fellow alumni,

The past year has been especially challenging for human rights and people working on issues related to human rights. During the celebrations of the 20th anniversary of the EMA in Venice in September, we addressed some of those internal and external challenges faced by the human rights community in the last years. We also heard though messages of optimism and hope from Manfred Nowak, our panelists and our workshop facilitators. We felt the strengt of our network with the organisation of this major event.

In 2018, we will celebrate the 70th anniversary of one of the milestone human rights documents: the Universal Declaration of Human Rights. Let's make sure we have reasons to celebrate by the end of the year. Let's work on replacing fear with hope in 2018! Networks like ours are needed more than ever. Modestly, our association can contribute to reverse trends, reinforce human rights and to support human rights professionals worldwide.

My hope for our association is that we continue to grow strong, give each other support. My hope is that more and more of the alumni contribute time, tips, jobs, ideas and initiative to the network. This network is only worth as much as you put into it.

Véronique Lerch
President E.MAlumni Association
